

# SPECIAL ELECTRIC WELDING EQUIPMENT - **MSA**

## **MSA**

is a specialized equipment that carries out the welding technology, for various components, including the stage during the brazing operation using beryllium, silver, ...

### **Main Technical Data**

- |                          |                     |
|--------------------------|---------------------|
| - Working cycle          | - Automatic         |
| - Positioning accuracy   | ± 0.2 mm            |
| - Power requirement      | 3.5 kW              |
| - Operating pressure     | 4 ÷ 6 bar           |
| - Welding Generator      | 220 V; 50 Hz; 15 A, |
| - Dimensions (L x W x H) | 2100x1100x1800 mm   |
| - Net weight             | 600 kg              |
